

CHANGES TO FILING FREQUENCY THRESHOLDS

Effective April 1, 2020, the thresholds that determine filing frequency of tax returns for Provincial Sales Tax (PST), Liquor Consumption Tax (LCT) and Beverage Container Program (BCP) accounts are changing as follows:

Based on Annual Tax Remitted		
Filing Frequency	Current Thresholds	New Thresholds
Monthly	Over \$7,200	Over \$12,000
Quarterly	\$3,600 to \$7,200	\$4,800 to \$12,000
Annual	Under \$3,600	Under \$4,800

The Ministry of Finance will evaluate accounts in April, 2020 using your most recent filing history to re-establish filing frequencies for all PST, LCT and BCP accounts based on the new thresholds. If the filing frequency for your account(s) has changed, you will be notified by mail, or through your [Saskatchewan eTax Services](#) (SETS) account for registered SETS users, in April, 2020.

Note: Tax clients may choose to file returns on a more frequent basis by submitting a Service Request online through your SETS account, or by contacting our office.
